An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Shimokaji on 24 January 2005.

The application has been amended as follows:

Cancel claim 13 as a duplicate of claim 5.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the improved properties of carbon containing components obtained with the recited coatings deposited by CVD from methylsilane and nitrous oxide such that carbon in the coating is chemically bound. The prior art as a whole clearly teaches the source materials and methods used to form a coating as well as the proportions of elemental species would be expected to each form unique coatings dependent upon those variables.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.
